ALUMINIUM COMPOSITE PANEL / MANUFACTURED BY FAIRVIEW

CARRARA GARDENS

PROJECT: CARRARA GARDENS GOLF COURSE & TENNIS ACADEMY
LOCATION: NERANG, GOLD COAST
ARCHITECT: SHIRO ARCHITECTS
BUILDER: ALDER CONSTRUCTIONS
PRODUCT: VITRABOND
COLOURS: ANODISED MIRROR VB5720 AND SILVER METALLIC VB9601

Fairview were chosen to supply Vitrabond composite panels for the \$20 million project overhaul of the existing Carrara Gardens Golf Course facility to create a world-class, state of the art, one-stop sporting complex on the Gold Coast, using the latest technology available for professional sportspeople.

The 12-hectare Carrara Gardens site has been built to be operationally friendly and as open and transparent as possible and is expected to be the host venue for the opening and closing ceremonies for the Gold Coast 2018 Commonwealth Games.

"Shiro Architects has used Vitrabond aluminium composite cladding for the soffit of the Carrara Gardens Golf and Tennis Academy building on the Gold Coast. The use of The Vitrabond Anodised Mirror and its reflectivity creates a building that conspicuously celebrates nature while simultaneously blending with it and bringing a sensational image of the sky onto the glass walls. As a consequence, the building looks striking."

Hiromi Lauren Shiraishi, SHIRO ARCHITECTS
