20kg Bags \$27.50 each
\$22 each for 1 tonne+

Decorative Pebbles

Landscape architects, designers & contractors are finding a growing range of uses and applications to incorporate decorative pebbles in landscaping applications.

Decorative pebbles can be used as a lawn replacement, as a garden feature, to provide a decorative colourful finish to concrete or to enhance paving - either loose or inlaid in mortar.

With over 100 colours and sizes to select from in the DécoR Pebble ranges you will find the pebble for your project at the most competitive price available.

Environmentally Friendly Pebbles

All colours pictured on the reverse side of this brochure featuring this symbol are from our enviroSelect ranges of decorative pebbles that are manufactured and are **not sourced** from river beds or beaches.

Vibrant Pebbles

For Seeded Exposed Aggregate or water features, wetting the pebbles will show the vibrant colours when used in these applications.

The Pebbles on the reverse side with **a size displayed in red** are suitable for seeded exposed-aggregate concrete and will take on a vibrant natural colour when sealed.
